The **Dania Beach Creative Arts Council**, the **Community Arts Plan** and the **Dania Beach Arts & Seafood Celebration** were developed to uncover and celebrate a deep underlying theme that authentically exists in the area. The ultimate goal of the council, the plan and the annual celebration is to showcase and grow the creative arts community in Dania Beach and to strengthen its identity as a strong industry in the area. It was imperative that the initiatives have an authentic Dania Beach feeling and complement, rather than compete with, other South Florida initiatives while improving the community's image.
